Oluwabusola Ilechukwu

SOFTWARE DEVELOPER - *making life easier through digital solutions*

WHO AM I?

Transitioning from a successful career in architecture to software development, I am ready to leverage my expertise in the MERN stack (MongoDB, Express.js, React, Node.js) to provide innovative solutions in a software development role. Each project I undertake is handled with rigorous discipline and diligence, underlining my ability to work effectively both collaboratively and independently. My proficiency in these key technologies and my adaptability fostered by my unique career path position me to thrive in dynamic and challenging software development environments.

EXPERIENCE

Junior React Developer at T40 | *Lagos* — Nov 2022 - Till date

- Excelling in identifying and optimizing web-based user interactions, delivering highly responsive and engaging user interface components using React.
- Demonstrated expertise in converting intricate designs and wireframes into high-quality, reusable code. Mastery in JavaScript following React.js workflows.
- Collaborative team member, working effectively with the product and design teams to create robust and user-friendly applications.
- Committed to writing clean, DRY (Don't Repeat Yourself) code and following best practices for web development.
- Applied best practices in code testing using tools such as Jest, leading to more stable and reliable applications.
- Utilized modern web technologies such as HTML5, Sass, and ES6+ JavaScript, enabling the creation of visually appealing and highly functional web applications.

Teacher at Redi School Of Integration | *Hamburg* — Aug - Dec 2022

- Collaborating with the teaching team to ensure a seamless learning experience for the students.
- Teaching HTML and CSS to students with little or no previous knowledge.

Architect at MJS Architects | *Düsseldorf* – Feb 2021 - Apr 2021

- Created and modified residential drawings in AutoCAD.
- Building application creation.

Architect at Third dimensions, *Lagos* - Jan 2016 - Sept 2017

- Created and modified drawings in AutoCAD and Revit.
- Development and implementation of interior concepts in the design team for SPAR Nigeria.

EDUCATION

Full Stack Development, *2021-2022*
40 weeks Intensive Full Stack Development Bootcamp.
Epicode (FKA Strive School), Berlin.

M.A. Architecture, *2017-2019*
Hochschule Anhalt, Dessau
International Architecture

BSC. Architecture, *2010-2014*
Kwame Nkrumah University of Science and Technology Kumasi, Ghana

SKILLS

Front End:

JavaScript, HTML5, Sass, TypeScript, React, Redux, Bootstrap

Back End:

Node, Express, MongoDB, REST API

Tools:

Agile, Heroku, CI-CD, Git, OAuth, TDD, Figma, PhotoShop.

LANGUAGES

English : Fluent
German: Intermediate
